Lehigh University is moving from an on-premises Enterprise Resource Planning (ERP) solution to the cloud. This transition is part of a strategy to make enterprise systems applications more responsive, agile, and aligned with campus needs, as well as to improve the user experience for students, faculty, and staff. Here is our roadmap for moving Banner to the cloud.

**BASE BUILD**
- Copy of Banner database in the cloud
- Banner8 SSB, Admin Pages, and Jobsub
- EIS configuration

**NETWORKING SETUP/ACCOUNT CREATION**

**CORE BUILD TESTING (BASIC FUNCTIONALITY)**
- Core team
- Functional users

**COMMUNITY USER ACCEPTANCE TESTING**
- End-to-end testing
- Functional areas sign-off

**NONPROD ENVIRONMENTS**
- 4 extra environments

**HOSTED ADD-ONS**
- Ellucian Mobile, Evisions, BDMS, etc.
- Ancillary testing

**INTEGRATION IMPLEMENTATION**
- Both campus and third-party integrations
- EnrollmentRx, PageUp, Time Clock Plus, etc.
- Ancillary testing

**TECHNICAL USER ACCEPTANCE TESTING**
- End-to-end testing
- In preparation for community testing

**GO-LIVE PREP**
- New implementation freeze
- Scripting the go-live weekend

**GO-LIVE EVENT**

**STABILIZATION**

**EXPANSION**
- Develop and integrate Ellucian Workflow, Experience, Ethos Analytics, and Degree Works
